

### Communication and Interaction Ideas

- Listen to a short story or short film (there are some good Disney shorts on YouTube). Ask your child what the story was about? What is their opinion of the story? Do they think that characters could have acted differently? What did they like or dislike about the characters?

### Independence Ideas

- Can your child help you to prepare a meal or snack?
  - Can your child make a choice of what activities they would like to do in a day?
  - Can your child start to gain more independence within their self care? For example; getting equipment ready for an activity, requesting an activity, helping to run a bath and learning about how to stay safe.

## Optional Home Learning! Green Class

Please feel free to use these ideas to keep learning going at home! There is no pressure to complete these...you may have other ideas and routines that you wish to maintain.

It would also be amazing to see or hear about what you've been getting up to so please feel free to share photos/work on our Twitter page: @KelfordSchool or you could put together a photo book to show us when we all come back! Please let us know if you need anything to help and we will try our very best.

Thank you all for all your hard work and support during these uncertain times. We miss you all!

If you need any extra support or resources then please email me on [ssidgwick@nexusmat.org](mailto:ssidgwick@nexusmat.org)

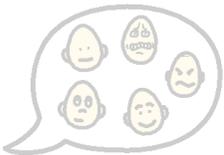

### Cognition and Learning Ideas

- Read a story together; can your child draw a picture to show what they read? Can they write a sentence to accompany this? Can they recall events in order? Can they identify specific characters when asked?
- Can your child apply counting in a practical activity? For example; lets have a race with 4 cars, draw a picture using 2 different colours, etc.

### Social, Emotional and Mental Health Ideas

- Read a story with your child; ask them to identify the emotions of the characters at different points in the story. Can they expand on this and talk about why a character might feel a certain way?
- Discuss emotions with your within daily activities; are they happy/sad/excited?? Why? Relating emotions to real life situations is important.
  - Practice some mindfulness activities such as yoga, meditation or breathing exercises.

### Sensory/Physical Ideas

- Find a recipe together and gather the ingredients. Can your child identify which ingredient is which? Can they measure out an ingredient looking for the correct number? Can they use their fine motor skills to open packets, pour ingredients, mix together, etc.?
- Can you take a walk in the local area looking for certain things? Bugs, animals, shops, etc.?
