Sports Premium Funding and PE development at Kelford School

Strategic Intent 2018-2019

The government provided additional funding of £150 million per annum for the academic years 2013 to 2017 to improve the provision of physical education (PE) and sport in primary schools. The funding has been provided to promote and encourage children to participate in a range of physical activity both in and out of school in order to prevent concerning statistics in relation to obesity coming to fruition.

PE and Sport Premium funding has been provided jointly by the Department for Education, the Department for Health and Culture and the Department for Media and Sport. It has been allocated to primary school Headteachers and is ring-fenced to be spent on the provision of PE and sport in schools.

Kelford School received £16,490 of funding for the academic year 2018-2019.

The additional funding will be used to improve the quality and breadth of experiences and learning opportunities for our children and young people to learn alongside their peers in mainstream schools.

This will enabled them to participate in sporting competitions and regional experiences including the English Institute of Sport inter-school sports day, Kielder Challenge and Girls in Sport.

To further develop skills, knowledge and understanding of staff to teach high quality physical education lessons.

This funding will be used to enhance and enrich the P.E curriculum, including sports and leisure activity for our pupils:

Proposed Plan

Kelford School propose to engage fully with the youth sports trust and participate in School Games Networks.

Going forward, Kelford will have an enhanced PE skills workforce through access to bespoke quality training packages.

Youth Sports Trust: Company Overview

Kelford School share the strategic objectives identified by Youth Sports Trust which are:

- We know that sport, play and physical activity hold the key to tackling so many of these challenges. But something isn't working. Children have never been less active and the young people who are most in need of sport's transformative power are the most likely to miss out.
- To help young people discover the joy of movement and nurture happy active lifestyles we need to work with them. We need to support schools, teachers, parents and coaches to tackle their challenges. And, as a charity, we need to ensure our foundations are strong to improve young lives for generations to come.
- By working together on these strategic objectives we can ensure that every child has the opportunity to fulfil their potential and enjoy the life-changing benefits that come from play and sport.

We envisage the Sports Premium Funding will enhance and enrich physical development for a wide range of pupil need including competitive sport and swimming.

In order to provide both enhanced curriculum offer and to up-skill the Kelford School workforce

The proposed programmes identified through action planning will include;

1. Lunchtime support which may involve Playground Leaders and support of playground management
2. Curriculum sessions supported by schemes of work and session plans
3. A programme of training for staff and or lunchtime supervisors
4. A programme of assessment
5. Support to apply for external funding to extend / sustain the programme
6. Additional physical activity - off site
7. Participation in inter school competition and School Games.
8. We will deliver a number of early morning and lunchtime clubs developed to promote healthy life styles
 - Wake & Shake Club – 8:50 - 9:20am
 - Lunch Club 1 – 12:45 – 1:15pm
 - Lunch Club 2 – 12:45 – 1:15pm
